ITEM NO. 3 – QUESTIONS AND RESPONSES

The following questions were received by the Transit Mailbox. The responses from the Honolulu Authority for Rapid Transportation (HART) are as follows:

Question #1
Page 1 of Appendix A of each RFQ lists bullets for various design contracts, design-build contracts, etc. Are these contracts that will be awarded under these two RFQs, or will they be advertised later as separate RFQs?

Response #1
The list of contracts in the Project Description on page 1 of Appendix A is a list of contracts for which the selected Consultant will provide Construction Engineering and Inspection Services to HART.

Question #2
Would you like for firms who are normally subconsultants to A/E firms to submit letters of interest and statements of qualifications (SOQs) independently of a prime proposer, or if those letters of intent and SOQs should come directly from A/E firms who would then present these specialty design firms as subs.

Response #2
The Letter of Interest and SOQ should come directly from the A/E firms who would then present these specialty design firms as subs.

Question #3
We would like to request that the Statement of Qualifications deadline for the East and West CE&Is be extended a week to August 30th to allow us time to incorporate any changes or answers to questions.

Response #3
The due date for Statements of Qualifications remains unchanged.
