| 16. Keeaumoku Shopping District     |   |

# KING STREET CYCLE TRACK PILOT PROJECT

Source: NACTO Urban Bikeway Design Guide, 2012

## WHAT IS A CYCLE TRACK?

Cycle tracks (also known as protected bike lanes, separated bikeways, and on-street paths) are physically separated bike lanes that allow bicycle movement on one side of the road. Two-way cycle tracks require additional awareness at driveway and side-street crossings as identified on the back side of this brochure.

A pilot project by the City and County of Honolulu  
Department of Transportation Services

# WHETHER YOU ARE WALKING, DRIVING, OR BICYCLING...HERE ARE SOME THINGS YOU SHOULD KNOW ABOUT CYCLE TRACKS.

Source: Illustration adapted from Bike Austin, City of Austin and Hammer and Tongs, Inc.

## WHEN YOU ARE WALKING:

- 1 Don't block or stand in the cycle track.
- 2 Don't walk along the cycle track.
- 3 Watch for people on bicycles before crossing the cycle track, even if you have the right-of-way. Look both ways.  
Cross street only on walk signal; otherwise, people on bicycles likely have a green light and right-of-way.

## WHEN YOU ARE DRIVING:

- 4 Watch for people on bicycles before opening your door.  
Park only in designated spaces outside of the cycle track.
- 5 When turning, yield to people walking and bicycling.  
Signal your intentions.
- 6 At side streets, cyclists may be queued at the light.
- 7 When exiting or entering driveways, watch for people bicycling in both directions.

## WHEN YOU ARE BICYCLING:

- 8 Watch for people walking, especially at intersections.  
Watch for people exiting parked cars.
- 9 Watch for crossing vehicle traffic at intersections, even if you have the right-of-way.
- 10 Give an audible signal when passing other people on bicycles and pass only on the left.  
Signal your intentions when traveling.
- 11 **TWO STAGE TURNING QUEUES:**  
To turn in the mauka direction at an intersection, turn right or left into the mauka bound lane of the cross street and make a U-turn when safe, coming to a stop behind the stop bar or any existing queued vehicles. When the light in front of you turns green, proceed across the intersection.

\* Only bicycles are permitted to travel along the cycle track.
