

“Complete Streets” makes roads safer, more inviting, and useable to all users whether traveling by foot, bike, bus, or car. Improvements can include, but are not limited to, sidewalks, crosswalks, accessible curb ramps, curb extensions, raised medians, refuge islands, roundabouts or mini-circles, traffic signals and accessible pedestrian signals such as audible and vibrotactile indications and pedestrian countdown signals, shared-use paths, bicycle lanes, paved shoulders, street trees, planting strips, signs, pavement markings including multi-modal pavement striping, street furniture, bicycle parking facilities, public transportation stops, and facilities including streetscapes, dedicated transit lanes, and transit priority signalization.

## WE WANT TO HEAR FROM YOU

- How do you get around?
- What makes your neighborhood unique?
- What needs improving?
- What do you want to see in the future?
- What would encourage you to walk/bike/bus more often?

Email us your thoughts at [completestreets@honolulu.gov](mailto:completestreets@honolulu.gov) or come and talk with us at one of our community engagement opportunities.

Detailed project schedule and meeting agendas available at <http://www.honolulu.gov/completestreets/kaneohe>

If you have questions or require special accommodations to attend the meeting, please contact Joanne Hiramatsu at [jhiramatsu@bchdesign.com](mailto:jhiramatsu@bchdesign.com) or (808) 846-3309 at least three (3) days prior to the meeting.

## GET INVOLVED

Engineers and planners will be available to discuss the project with you.
