

SUBMETER APPLICATION FORM

Please check our website, www.envhonorolulu.org, for instructions on what we require on the plans. Submit this form and your plans with the information you currently have available. Please make a copy, as you will need to update and turn in the completed form to the Investigator at the final inspection. Once the plans have been reviewed and approved, you will be notified and the Submeter and Backflow Preventer may be installed. After the installation, you will need to contact our department at (808)768-3326. We will schedule an appointment for a site visit and verify the information on the plans. The completed application form will be required at this time.

Applicant's Information

NAME:

ADDRESS:
