

It's Piling Up (lyrics and music by Jonathan Syper)

It's piling up. It's too much.
It's piling up. Whatcha gonna do.
Reduce how many things you use
Reuse old things just make them new
Recycle dude it's so easy to do
Reduce
Reuse
Recycle
Ooooooh

How many licks does it take to get it?
Candy sticks make the earth upset.
Can I get a witness? You bet.
When you see it on the ground yell, I GET!
Better yet put the candy away
Save it as a treat for another day
And when you open up that treat I say
Be careful, where you throw it away.

It's piling up. It's too much.
It's piling up. Whatcha gonna do.
Reduce how many things you use
Reuse old things just make them new
Recycle dude it's so easy to do
Reduce
Reuse
Recycle
Ooooooh

Cross the line and you could cross ova
Into a world where we use Coca-Cola
No not the soda just the can outside.
Put it in a bag and take it to a site
Where they flush it flush crush it good
Melt it smelt into sludge
Why should I recycle? Cause,
You get money back HI5 for love!

It's piling up. It's too much.
It's piling up. Whatcha gonna do.
Reduce how many things you use
Reuse old things just make them new
Recycle dude it's so easy to do
Reduce

Reuse
Recycle
Ooooooh

Bang bang, the suga for ya boogie
Suga for ya body make your body real weak
Keep it all balanced with a tasty treat
Like fruits and veggies mmm so sweet
But don't stop there man have a care
When you go to the store for a yummy pear
Bring your own bag there's nothing to it
And the coolest part is you can reuse it!

It's piling up. It's too much.
It's piling up. Whatcha gonna do.
Reduce how many things you use
Reuse old things just make them new
Recycle dude it's so easy to do
Reduce
Reuse
Recycle
Ooooooh
