

# POTENTIAL FLOOD AREA REFERENCE MAP

Areas shaded as having a history of flood risk do not indicate boundaries or limits of inundation. These are general location markers for reference purposes only.

A lack of shading in any area does not imply or indicate an absence of vulnerability to flooding.

These maps do NOT include coastal inundation areas from tsunamis or storm surge.

See <http://www.honolulu.gov/demevacuate.html> for additional guidance on evacuation.

For additional references, see the Flood Hazard Assessment Tool provided by the State of Hawaii Department of Land and Natural Resources at <http://gis.hawaiiifip.org>.

Note: Data represented on this map is not intended to replace site survey.

**Potential Flood Area**

Areas shaded as having a history of flood risk do not indicate boundaries or limits of inundation. These are general location markers for reference purposes only. A lack of shading in any area does not imply or indicate an absence of vulnerability to flooding.

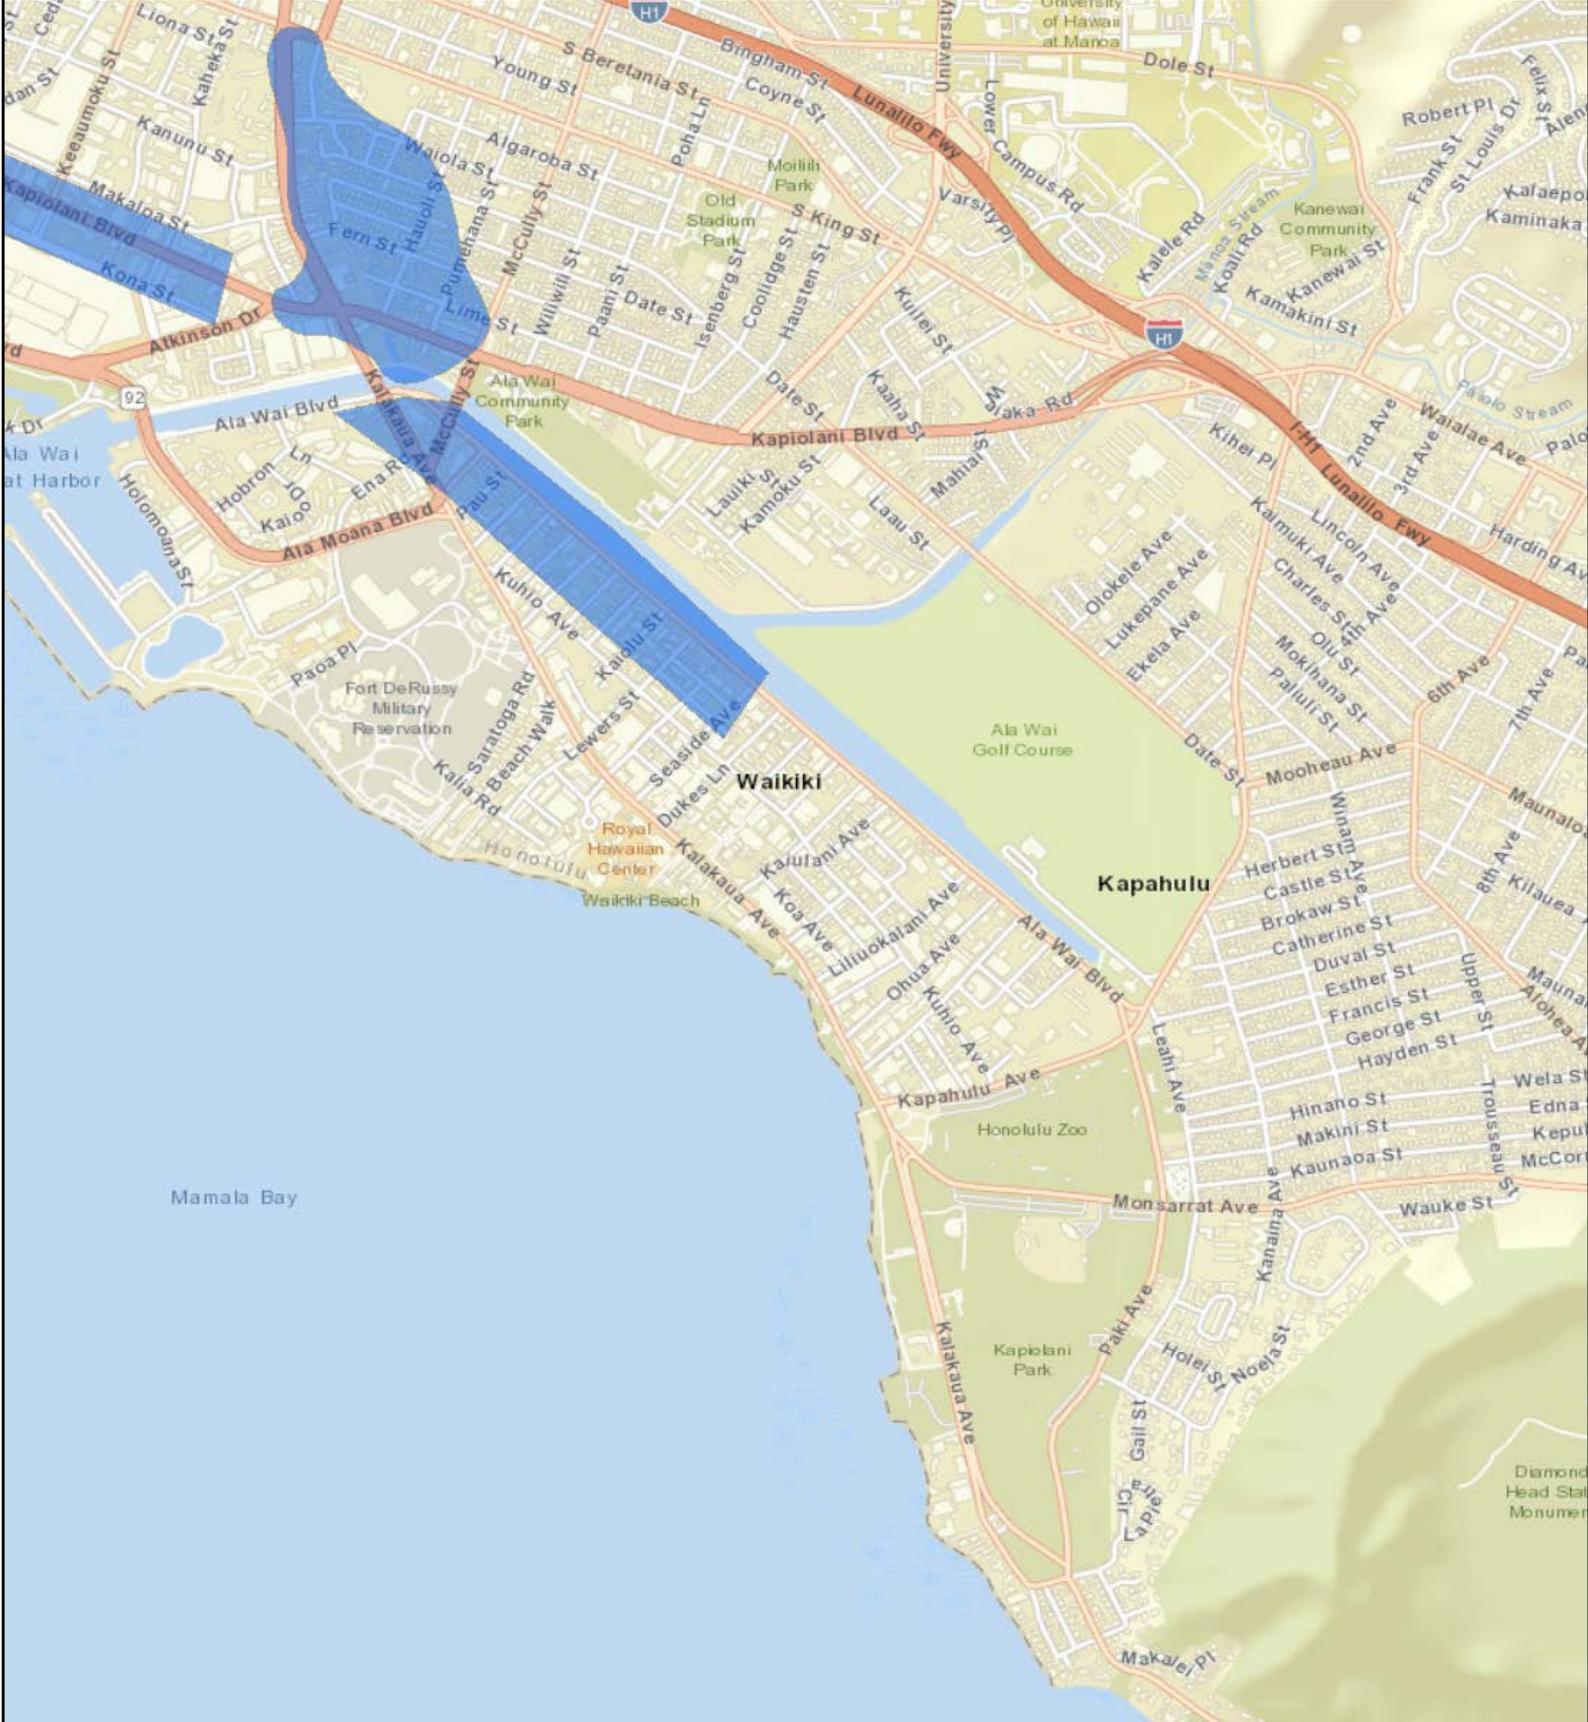

Prepared by: Honolulu Land Information System (HoLIS) Department of Planning and Permitting  
 Note: Data represented on this map is not intended to replace site survey.
