### Gender

### Race/Ethnicity: PIT Veteran Population

### Race/Ethnicity: O'ahu Population

- 356 individuals were veterans making up 10% of the adult PIT Count population (3,716).
- The majority of veterans were sheltered (59%), male (88%), and above the age of 50.
- Whites account for the largest percentage of the veteran population, followed by Multiracial individuals.
  - Black and African American adults were over-represented by 500%
- The majority of veterans were single adults households, the unsheltered population also has a large number of adult only households.

### Household

### Age

# VETERANS 2020 SUB-REPORT

Health	Veterans			PIT Count
	Sheltered	Unsheltered	Total	
Chronically Homeless	35% <small>(ES &amp; SH Only)</small>	56%	37%	24%
Disabling Condition	85%	72%	80%	40%
Avg number of disabling conditions	2.5	1.7	2.2	1.9
Disability	70%	47%	60%	28%
Serious Mental Health Illness	51%	43%	48%	25%
Substance Use Disorder	36%	34%	35%	18%

- The majority of the veteran population has a disabling condition. The rate of disabling conditions is over double that of the O’ahu PIT Count Population.
- Disability, Serious Mental Health Illness and Substance Use Disorder are all nearly double among the Veteran Population as compared to the O’ahu PIT Count Population.
- The majority of unsheltered veterans had currently been experiencing homelessness for an extended period of time, over 1 year.
- The largest percentage of unsheltered veterans were counted in Regions 1, 2 and 7.
