For most Tsunami Warnings, evacuate out of the red zone; in the unlikely event of an Extreme Tsunami Warning, evacuate out of the red and yellow zones.

- Remain at least 150 feet away from inland waterways and marinas connected to the ocean due to wave surges and possible flooding.

- Boaters should move vessels to at least 50 fathoms (300 ft) deep and 2 miles away from harbor entrances; follow all directions from the Captain of the Port.

- Structural steel or reinforced concrete buildings of ten or more stories provide increased protection on or above the fourth floor; if you are caught near the shoreline consider using vertical evacuation.

- These maps do not consider the destructive effects of a locally generated tsunami. If you feel shaking, move inland immediately, well inland from the red tsunami evacuation zone.

- The evacuation zone is a guideline and should be considered the minimum safe evacuation distance.
