

Happy Holidays!

This season is a special time of year on the islands. We gather and celebrate with our ohana. As we enjoy our parties, presents, potlucks, and popping fireworks, let's remember to protect our waters that surround us by keeping our neighborhoods clean.

Do these two simple actions and give the gift of health to our island home.

1

Stash your trash! Proper trash disposal includes picking up litter, bagging and tying, and keeping bin lids closed to keep debris from flying away.

2

Unclutter your street gutter! Cleaning rubbish from street gutters fronting your home is the homeowner's responsibility. Let's all do our part to help.

Be an Everyday Clean Water Hero and not just for the holidays! Find us December 5th at Honolulu City Lights & December 12th at Kapolei City Lights. More information and volunteer opportunities at:
