New DPP Water Quality Rules for Construction and Post Construction

Introduction

The purpose of this training is to introduce the new DPP rules as it pertains to construction and post construction; how the new rules affect the construction industry; and to provide additional knowledge to construction companies regarding construction site best management practices (BMPs).

Overview

PART-1a CONSTRUCTION
New DPP Water Quality Rules
New Categories (1a, 1b, 1c)
Erosion Sediment Control Plan (ESCP)
