## INTERNSHIPS 2021

advancing excellence in public service

[www.honolulu.gov/hr](http://www.honolulu.gov/hr)

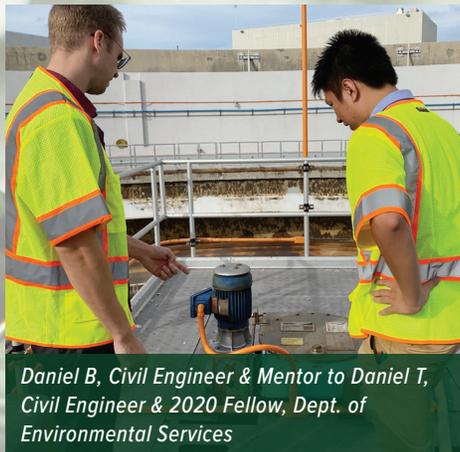

SPRING/SUMMER  
City and County of Honolulu

Jared A. (left) Mechanical Engineering major & 2020 Fellow with Randall B., Mechanical Engineer & 2019 Fellow, Dept. of Facility Maintenance

“What most impacted me about the internship is being able to see things on a community level including the decision making and challenges that the city faces. This internship gave me valuable experience in project management and opportunities to explore different types of engineering disciplines such as storm water, construction and HVAC.

My mentor allowed me to get hands-on experience with managing projects, dealing with contractors, attending meetings, scopes of work and understanding the procurement processes. He also allowed me to experience setbacks that engineering projects may come across and insight into how to deal with them.

Daniel B, Civil Engineer & Mentor to Daniel T, Civil Engineer & 2020 Fellow, Dept. of Environmental Services

I recommend this internship to anyone as it allows you to learn concepts and processes that aren't normally taught in school, and provided insight into how the local government operates and overall a better understanding of your own community.”

– Jared A

# PO'OKELA FELLOWS

## 2021 SPRING/SUMMER SESSION

January – June 2021

### REQUIREMENTS

- Enrollment in a Bachelor's or Master's degree program •
- Completion of 60 credits minimum •
- Good academic standing •
