2.1 Standards and Criteria for Determining Adequacy of Public Facilities

- (a) Each director, except the Director of Land Utilization and the Building Superintendent, shall promulgate rules setting forth standards and criteria for determining the adequacy of public facilities for ohana accessory dwellings, pursuant to Ordinance 88-48 amending Section 6.20 of the Land Use Ordinance, and Chapter 91, Hawaii Revised Statutes.
- (b) Each department, upon request, shall provide the basis on which adequacy or inadequacy was determined and future plans for improvement.

2.2 Mapping of Eligible Areas

- (a) The Director of Land Utilization shall prepare a map or maps identifying areas which are eligible and ineligible for ohana accessory dwellings. The map shall be considered as a guide only. The purpose of the map is to allow the City to readily identify areas where public facilities are adequate or inadequate for ohana accessory dwellings. Each department shall review and comment on the overall map prepared by the Department of Land Utilization.
- (b) Each director shall notify the Department of Land Utilization when there is a change in the adequacy of public facilities under that department's jurisdiction, which affects the eligibility of any area to accommodate ohana accessory dwellings. The Director of Land Utilization shall make appropriate map changes and submit the changes to all other directors for their review and comment.

- (c) No director shall designate eligible areas on the map or make changes to the map without prior review and approval from the other directors.

2.3 Public Review

- (a) Prior to designation of an area eligible for ohana accessory dwellings, the Department of Land Utilization shall notify the Neighborhood Board(s) in the affected area of the proposed change, along with a request that comments be made within 45 days of the date of the notice.
- (b) If, in the judgement of the Director there is sufficient cause to hold a public hearing on the designation, the Director shall hold a public hearing no sooner than 45 days from the date of notification to the neighborhood board(s).

2.4 Decision

- (a) Following the public review period and public hearing, if one is held, the Director of Land Utilization shall make a final decision regarding the eligibility of the subject area.
- (b) No area shall be designated eligible for ohana accessory dwellings unless the public facilities are determined to be adequate by the directors.
- (c) Notwithstanding the adequacy of public facilities, if the Director of Land Utilization, after considering all pertinent data, finds that the potential increase in density would have adverse impacts on all or part of the subject area, the Director shall not designate that area or portion thereof eligible for ohana dwellings. The Director shall consider impacts including but not limited to those related to topography, soils, drainage, flooding, traffic flow and safety, and on-street parking.

RULE 3. PROCEDURE FOR OBTAINING AN OHANA BUILDING PERMIT

3.1 Public Facilities Pre-check Procedure

- (a) The applicant for an ohana building permit must submit a completed public facilities pre-check form to the Building Department with the building permit application.
- (b) The purpose of the public facilities pre-check procedure is to assist the applicant to receive zoning and infrastructure review and approval without the expense and time of preparing a full set of plans prior to applying for a building permit.

- (c) The public facilities pre-check form does not give the applicant permission to construct an ohana accessory dwelling without obtaining a building permit.

3.2 Public Facilities Pre-Check Form

- (a) Any person whose property is within or directly adjacent to any area identified as eligible on the ohana map(s) may obtain a Public Facilities Pre-check Form from the Building Department. The applicant must complete all information required on the pre-check form before routing it to the agencies indicated on the form. No building plans are required.
- (b) The pre-check form becomes void 120 days after the first date of approval by a department, except that a one-time 90 day extension may be granted by the Board of Water Supply.
- (c) If any department does not approve the pre-check form, a building permit for an ohana accessory dwelling cannot be issued.
- (d) Any department which does not approve the pre-check form shall, upon request, inform the applicant of the reason for its disapproval.
- (e) The completed pre-check form shall be attached along with required drawings, to the building permit application.

3.3 Pre-Check Approval for Nonconforming Second Dwelling Units

- (a) Notwithstanding its location in an ineligible area, an existing second dwelling unit may be reviewed and approved in accordance with the pre-check procedures described herein, provided that:
 - (1) The Building Department determines that it is a legal, nonconforming dwelling unit, as defined in the Land Use Ordinance.
 - (2) Public facilities are adequate as determined by the appropriate departments.

3.4 Procedure for Time Extensions

Extensions to the 120 day time period can be granted by the Board of Water Supply for the following reasons:

- (1) The plans for the building permit are incomplete. Written verification is required from the architect, draftsman or person(s) drawing the plans.

- (2) Processing of financing is delayed. Written verification from the lender is required.
- (3) Application for a variance from zoning code requirements is pending. Written verification from the Department of Land Utilization is required.

3.5 Amendment of the Pre-check Form

- (a) Any department may request changes to the pre-check form and shall submit the request to the Department of Land Utilization.
- (b) No changes to the pre-check form shall be made without review and approval from all directors.

RULE 4. COMPLIANCE WITH THE LAND USE ORDINANCE

4.1 Size Limitations

- (a) All ohana units shall comply with the floor area limits prescribed in Ordinance 88-48 amending Section 6.20 of the Land Use Ordinance.
- (b) For the purpose of determining whether an existing or proposed second dwelling unit conforms to the prescribed size limits for ohana accessory dwellings, the following shall not be included in the "maximum floor area" of the ohana unit:
 - (1) Carport or garage
 - (2) Incidental storage area
 - (3) Open deck
 - (4) Covered open entry
 - (5) In an attached ohana dwelling unit, a lanai, storage area or service area (laundry area, breezeway) shall not be considered part of the ohana unit if it is separated from it by an unbroken separation wall.

4.2 Compliance with Land Use Ordinance Development Standards

Ohana accessory dwellings must comply with applicable zoning district standards, including but not limited to: setbacks, yards, height, and parking.

4.3 Nonconforming Ohana Units

- (a) If a question arises as to which of the two dwelling units on a lot is the ohana accessory dwelling and which is the principal dwelling, the determination shall be made by the Building Superintendent. The Superintendent may consider the history and size of the units, the preference of the owner and any other factors which may be relevant.
- (b) The Superintendent may consider requests to redesignate the ohana accessory dwelling and the principal dwelling, provided that such a redesignation will not increase any nonconformity.

RULE 5. APPEALS

Appeals from the actions of the directors in the administration of these Rules shall be made according to the provisions of the City Charter.

RULE 6. VALIDITY

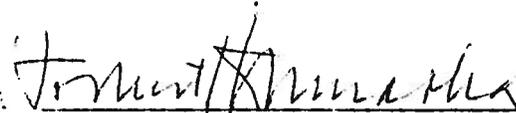

If any section of these Rules is held to be invalid for any reason whatsoever, such validity shall not affect the validity of the remaining sections of these Rules and Regulations.

These Rules shall become effective upon their approval by the Mayor of the City and County of Honolulu and ten (10) days after filing with the City Clerk.
