

## CONSULATE GENERAL OF THE REPUBLIC OF KOREA

CGHL-010

The Consulate General of the Republic of Korea in Honolulu presents its compliments to the City and County of Honolulu and has the honor to inform the latter that the Government of the Republic of Korea has decided to implement mandatory quarantine to all travelers entering Korea from abroad, regardless of nationality, in an effort to prevent further inflow of COVID-19. The following measures will come into effect from 00:00 on Wednesday, April 1, 2020, Korea Standard Time, which is 5:00 a.m. on Tuesday, March 31, 2020, Hawaii Standard Time.

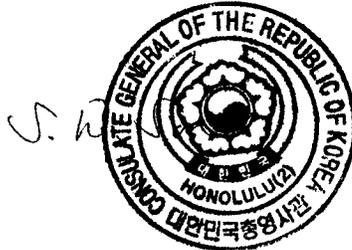

- (1) All incoming Koreans and foreign nationals are subject to 14-day mandatory quarantine. All in-bound travelers are required to download the Self-Quarantine Safety and Protection App on their smartphones.
- (2) All in-bound travelers who display fever or symptoms associated with COVID-19 are escorted to designated quarantine facilities located at the airport to be tested for COVID-19. Those who test positive will either be hospitalized for treatment or quarantined and monitored at a Living Treatment Center according to the severity of their symptoms. Those who test negative are required to quarantine for 14 days.
- (3) All asymptomatic foreign nationals with long-term visas (holders of alien registration cards) are required to observe self-quarantine at their residence. Foreign nationals with long-term visas without a place of residence or on a short-term visit are required to be quarantined at a government-run facility, at their own expense.

/ctnd/

- (4) To minimize restrictions on necessary international travels, the 14-day quarantine requirement is waived for holders, excluding family members, of A1(diplomatic), A2(official) and A3(treaties) Visas, and those for whom an Isolation Exemption Certificate is issued at a Korean Embassy/Consulate prior to their departure. These travelers are tested for COVID-19 upon arrival, and, if tested negative, will be subject to "active monitoring." This includes daily submission of health conditions via the Self-Diagnosis App and the daily response to phone calls from health authorities throughout their stay in Korea.

The Consulate General has further the honor to inform the latter that the U.S. Government has also been duly notified of the said measure. The Consulate will keep its emergency phone line (808) 265-9349 open for 24 hours should any questions or concerns may arise.

The Consulate General of the Republic of Korea in Honolulu avails itself of this opportunity to renew to the City and County of Honolulu the assurances of its highest consideration.

Honolulu, March 30, 2020
